### Outstanding Recommendations and Outstanding Areas of Interest October 25, 2020

Current outstanding <b>Recommendations</b> pertaining to this program (use specific wording)	Date CNME Board voted to adopt recommendation	Date by which recommendation must be satisfactorily addressed or further board action must be taken (2-year rule)	Miscellaneous Notes (board actions in regard to this recommendation and other information)
<p><b>Recommendation III-1:</b> The team is concerned that while there are a number of plans in the works to improve the financial resources of the institution, the institution does not currently demonstrate adequacy and stability of financial resources. The institution must, if it is to survive in the long-term, rapidly achieve financial stability, as evidenced by consistent positive annual financial performance. (Std. III B.1 &amp; Std. III.C.1)</p>	October 20, 2019	October 20, 2021	<p style="text-align: center;"><i>Accreditation re-affirmed for 5 years, retroactive to the spring of 2018, with the next reaccreditation visit to be conducted in the spring of 2023</i></p>
<p><b>Recommendation IV-1:</b> The team is concerned that the overall small number of core/full-time faculty—and the absence of core/full-time clinic faculty—greatly impedes the program’s ability to effectively address the institution’s/ program’s service needs, such as integration of the clinical and didactic portions of the curriculum, activities related to shared governance, participation in research and committee work, and so on. The program must increase the number of core/full-time faculty, including the appointment of core/full-time clinic faculty. (Std. IV.B.1 &amp; Std. IV.B.2)</p>	October 20, 2019	October 20, 2021	<p style="text-align: center;"><i>Issued Letter of Advisement effective May 24, 2020; focused report due by October 15, 2020; focused evaluation visit due between October 2020 – February 2021</i></p>
<p><b>Recommendation III-2:</b> The team is concerned that the strategic plan and the budget projections tied to the plan contain overly optimistic financial forecasting in regard to certain strategic initiatives (e.g. fundraising, continuing education programs), which in turn could lead to unanticipated financial exigencies. The institution must assure that it engages in realistic financial forecasting across the entire strategic plan. (Std. III. A.2 &amp; Std. III.C.2)</p>	June 26, 2020	June 26, 2022
